- Software peer review
- Software test implementation
- System integration
- Diagnosis and remediation of faults identified within software
- Release and configuration management of software artefacts for deployment to test and production environments
- Estimating task complexity/effort to support planning
- Mentoring and supporting junior developers within the team

2. Bid & Proposal Support

- Define software elements of solutions to support bids and enquiries
- Identification and mitigation of technical risks

Key Result Areas:

The jobholder will be expected to:

- Software Design & Development (95%)
- Bid & Proposal Support (5%)
- Understand and implement the company environmental, health & safety policy by accepting individual responsibility and responsibility for those personnel under their authority, including others who may be affected by the company’s activities.
- Ensure personnel are aware of their responsibility towards H&S and are equipped accordingly.
- Always set a strong personal example regarding all health and safety matters.
- Identify opportunities to improve processes

Values:

- **Safety First** – We operate safely and responsibly, protecting each other and the environment.
- **One SEA Team** – We are in this together. One team, working ethically, respectfully & professionally. We take responsibility and challenge each other constructively
- **People Focussed** – We all contribute to making our culture one that is supportive and empowering; where everyone can grow and develop, feel valued and rewarded. We prioritise a healthy work-life balance
- **Delivery Excellence** – We exceed our commitments by delivering timely, quality outputs whether that’s for each other or our clients and partners. We are always looking for ways to innovate and continuously improve
- **Trusted Partners** - We partner strategically, collaboratively and always with integrity, whether that is between us inside SEA or externally

Training: (if applicable)

Every engineer has a Personal Development Plan agreed with their Head of Discipline that identifies training needs included in the company training plan
